## X2649 WASH PRIMER REDUCER

GENERAL INFORMATION	PHYSICAL PROPERTIES	APPLICATION
<p>X2649 is the reducer/etching solution for use with Wash Primer Base 2035-534 and Conductive Wash Primer Base W6880. As a system they make up a two component vinyl based, acid etch wash primer specifically designed as an adhesion promoter for topcoat paint systems over untreated ferrous and non ferrous substrates.</p> <p>This product is recommended for use with polyurethanes, baking enamels and lacquers in order to promote adhesion.</p> <p>Randolph Products Co. warrants that its products meet its internal specifications and are of merchantable quality. However, the purchaser is solely responsible for the suitability of the product for any particular application. The purchaser should thoroughly test or qualify the product for serviceability, environmental compliance and health and safety factors prior to use. Further, our total liability is limited to the price of the product or replacement in kind.</p> <p>Randolph Products Company        33 Haynes Circle        Chicopee, MA 01020        Phone: 413-592-4191        Fax: 413-594-7321  <a href="http://www.randolphproducts.com">www.randolphproducts.com</a></p>	<p><b>Note:</b> For use only with Wash Primer Base 2035-534 or Conductive Wash Primer Base W6880.
